Job Description

Hiring for DevOps AWS Intern!!!
Job Title: DevOps AWS Intern
Duration: 6 months
End Date: 30-march
Role Overview:
We are looking for a passionate and responsible DevOps AWS Intern to assist in designing, building, and managing cloud infrastructure on Amazon Web Services (AWS) using DevOps practices. In this internship, you will work with cutting-edge cloud technologies and DevOps tools, gaining hands-on experience in a corporate environment.
Key Responsibilities:
• Assist in designing and implementing cloud infrastructure on AWS.
• Contribute to building and managing CI/CD pipelines using tools like Jenkins.
• Help in version control and collaboration using GitHub.
• Assist in containerizing applications using Docker.
• Work closely with the DevOps team to ensure smooth deployment and continuous integration.
• Support in automating manual processes and improving system efficiency.
Skills Required:
• Basic knowledge of **AWS Cloud** services and infrastructure.
• Familiarity with **Jenkins** for building CI/CD pipelines.
• Understanding of **CI/CD concepts** and how to integrate them.
• Experience with **GitHub** for version control and collaboration.
• Knowledge of **Docker** and containerization practices.
What We Offer:
• **Performance-based stipend**: Compensation based on your contributions and performance during the internship.
• **Experience Certificate**: Upon successful completion, you will receive an official certificate.
• **Corporate Environment**: Work in a professional setting to gain real-world experience and enhance your skills in cloud computing and DevOps practices.
